PRIMARY EXAMINER

### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The prior art does not teach or suggest a rotational speed switching apparatus of a ceiling fan including a conductive ring being stepped to have an upper section, a middle section, and a lower section which continuously fall with the widths of the upper, middle, and lower sections being respectively 72 degrees of the circumference of the conductive ring with the lower section having connecting section extending from the lower section to a bottom of the rotary shaft while the interior of the seat body is partitioned into first, second, third, fourth, and fifth receptacles with a ring shaped conductive member disposed in the first receptacle corresponding to the connecting section; two conductive leaf springs disposed in the second receptacle respectively corresponding to the upper and lower sections of the conductive ring; two conductive leaf springs disposed in the third receptacle corresponding to the upper and middle sections of the conductive ring; and a conductive leaf spring disposed in the fifth receptacle corresponding to the upper section of the conductive ring.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
